

WEEKLY UPDATE AND NOTIFICATION OF NEW CASE

11/4/2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility and notification that we received confirmation on Monday that a resident tested positive for COVID-19, which brings our total number of cases to 3 residents and 9 employees who have tested positive for the virus. We will continue weekly testing per CMS requirements and work diligently with our health officials to prevent any further spread of the virus in our facility.

Visitation is being conducted very differently than in the past for the purpose of protecting our residents and staff's safety, as well as your own. As such, and in line with the most recent recommendations from CMS, please read below for some general visitation requirements and information that you should know prior to visiting your loved one.

At all times, especially during visitations, our facility will practice and enforce the core principles of COVID-19 infection prevention ("Core Principles"), which include but are not limited to screening all visitors for signs and symptoms of COVID and ensuring that visitors (1) practice hand hygiene; (2) use face coverings or masks that cover the mouth and nose; and (3) practice social distancing of at least six feet apart during the visit. Also, our facility staff will clean and disinfect high frequency touched surfaces and designated visitation areas after each visit and they will use appropriate PPE at all times.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 702-251-2200

Sincerely,

Tanella Valenzuela
